Subject: FW: Opposition to the loss or amendment of the prescriber communication language that exists in HB 4812

Michigan Senate members - Please see the email below that was sent to Chairman Shirkey. We ask for your support in stopping this dangerous amendment and to vote against any amendments that strip or weaken this important prescriber language

Thank you for your consideration, Thair Phillips

Subject: Opposition to the loss or amendment of the prescriber communication language that exists in HB 4812

Dear Chairman Shirkey,

We have been notified that you intend to submit an amended substitute for HB 4812 that would strip the prescriber communication language from the original HB 4812. We oppose this substitution and loss of the transparent communication that exists in the original bill.

As the President of RetireSafe, a nationwide non-partisan non-profit organization with more than 300,000 supporters (over 62,000 in Michigan), I urge you support the original bill's prescriber communication language.

We know that you are concerned with patient safety and want to protect the citizens of Michigan. It is because of that commitment to safety that we ask you for your support in this issue.

Thanks you for your consideration, Thair Phillips
